

Halterahmen für Taschenfilter, Baureihe 400 - ULT 02.1.055

Item no. WL39037

Manufacturer ULT

Metal holding frame that mounts the bag filter in ULT extraction units of the 400 series (ASD 400). The frame seals the prefilter in place and ensures correct airflow onto the downstream main filter.

TECHNICAL DATA

Country of Manufacture **Germany**

HS-Code **84219990**

Weight **0.1 kg**

DESCRIPTION

The holding frame mounts the bag filter in your ULT extraction unit of the 400 series and holds it tight and precisely in position. This forces the full airflow through the filter medium and prevents unfiltered air from bypassing the main filter. A damaged or lost frame can be replaced individually.

BENEFITS

- Sealed bag filter mount prevents bypass and secures filtration performance
- Exact fit for the ASD 400 device series, no modification needed
- Tool-free filter change in the frame reduces downtime
- Robust construction for repeated filter swaps over the unit lifetime

TECHNICAL DATA

Manufacturer	ULT
Model	02.1.055
Item number	WL39037
Manufacturer item number	02.1.055
Function	Holding frame for bag filter
Device series	ASD 400
Order unit	Piece

APPLICATIONS

Spare and accessory part for ULT extraction units of the 400 series that extract solder fume and fine dust from soldering processes in electronics manufacturing.

COMPATIBILITY AND SCOPE OF DELIVERY

Suitable for ULT extraction units of the ASD 400 device series. Scope of delivery: 1 holding frame. Bag filter and main filter are ordered separately.
