

Change frame with filter mat set M5/F7 prefilter series 400 - ULT 02.1.032

Item no. WL39791

Manufacturer ULT

The prefilter decides how long the expensive main filter lasts. This change frame for the ULT series 400 comes complete with the M5/F7 filter mat set (02.0.040) and takes out coarse and fine dust before the air reaches the HEPA and carbon stages. It fits ASD 400, LAS 400 and LRA 400.

TECHNICAL DATA

Weight 0.1 kg

DESCRIPTION

Replacing only the main filter and skipping the prefilter costs twice at the next service. This ULT change frame carries the M5/F7 filter mat set and keeps coarse and fine dust out of the extracted air of the series 400 before it loads the downstream filter stages.

BENEFITS

- Two-stage M5/F7 mat set in one frame, covering coarse dust and finer particles in a single part
- Extends the service life of the HEPA and adsorption filters of the series 400
- Frame design, mats are changed without tools and without cutting to size
- Defined as the prefilter for ASD 400, LAS 400 and LRA 400
- Mat set also available separately as 02.0.040

TECHNICAL DATA

Item number	WL39791
Model	02.1.032
Manufacturer	ULT
Manufacturer item number	02.1.032
Order unit	piece
Filter type	prefilter
Design	change frame with filter mat set M5/F7
Included mat set	02.0.040

Device series	ASD 400, LAS 400, LRA 400
Weight	0.1 kg

APPLICATIONS

Servicing of solder, laser and adhesive fume extraction units of the series 400 in electronics manufacturing, rework and laboratories. The prefilter is changed at shorter intervals than the main filter, typically as soon as airflow drops visibly or the mats are visibly loaded.

COMPATIBILITY AND SCOPE OF DELIVERY

Suitable for ASD 400, LAS 400 and LRA 400. Scope of delivery: 1 change frame including the M5/F7 filter mat set (02.0.040). For subsequent changes the mat set 02.0.040 is sufficient, the frame stays in the unit.
