

## Hot air nozzle NRV12 with vacuum and preheating plate, D: 12 mm - Weller NRV12

Item no. WL40593

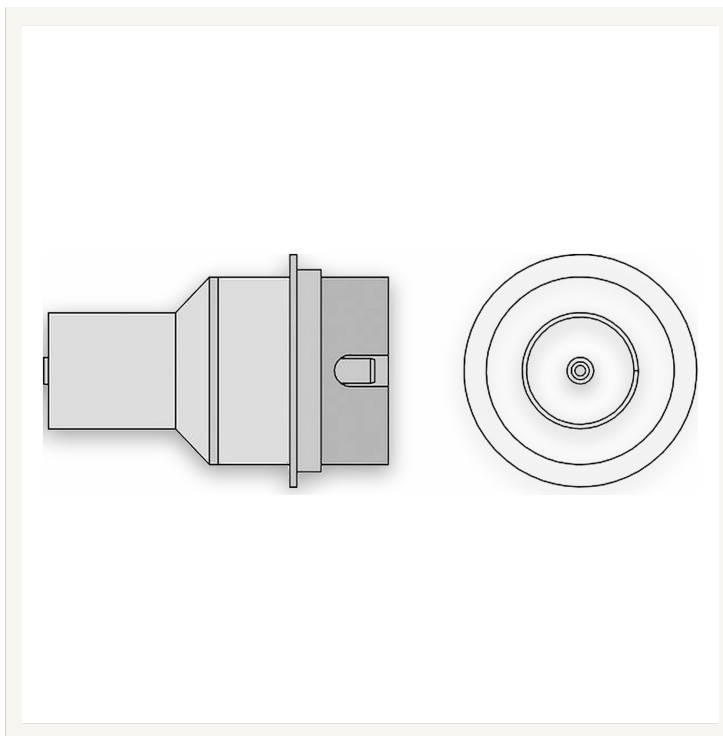

Manufacturer Weller

NRV12 hot air nozzle with an integrated preheating plate and vacuum for the HAP handpieces. The 12 mm nozzle with surrounding air outlet slots heats components evenly through contact heat and hot air.

### TECHNICAL DATA

Country of Manufacture **Germany**

HS-Code **85159080900**

Weight **0.1 kg**

### DESCRIPTION

The NRV12 is a hot air nozzle with vacuum and an integrated preheating plate. The plate preheats the component by contact heat, while the surrounding air outlet slots of about 1 mm width direct the hot air around the component.

### BENEFITS

- Integrated preheating plate for even contact heat before desoldering
- Surrounding air outlet slots of approx. 1 mm width for all-round hot air supply
- Vacuum function to lift the desoldered component
- 12 mm nozzle diameter for correspondingly large components

### TECHNICAL DATA

|                       |                            |
|-----------------------|----------------------------|
| Model                 | NRV12                      |
| Manufacturer item no. | T0058750774N               |
| Product series        | NRV hot air nozzles        |
| Diameter              | 12 mm                      |
| Tip shape             | Hot air nozzle with vacuum |
| Suitable handpiece    | HAP 2, HAP 3, HAP 3000     |
| Order unit            | Piece                      |

## **APPLICATIONS**

Suitable for desoldering and repositioning SMD components where preheating and lifting by vacuum protect the parts.

## **COMPATIBILITY**

Fits the hot air handpieces HAP 2, HAP 3 and HAP 3000.

Made in Germany.
