

Special soldering tip 20x30 mm for soldering to metal - JBC C470-057

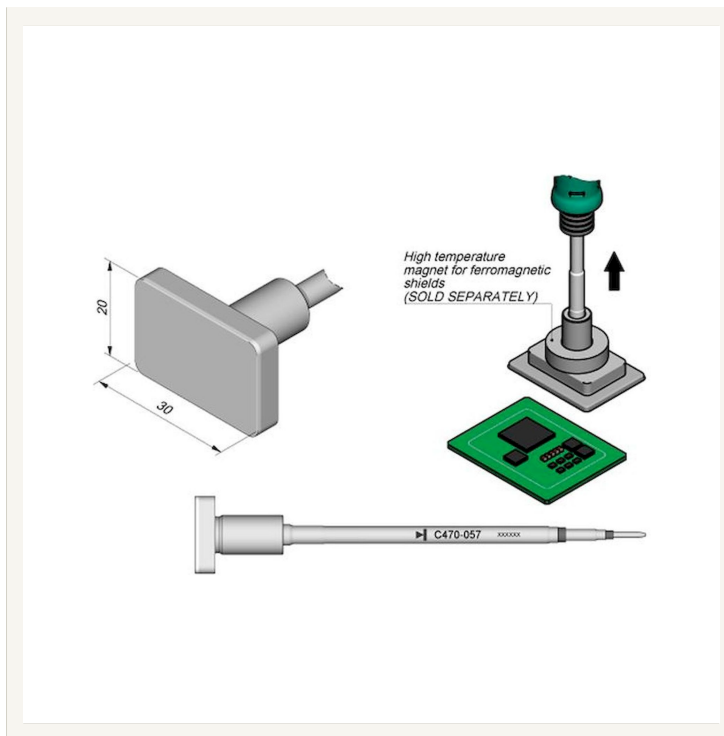

Item no. WL41419

Manufacturer JBC

Special soldering tip 20x30 mm for soldering to metal from the JBC C470 series for the T470 soldering iron, usable up to 500 °C on the HDE supply unit. Integrated heater, tool-free change.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Country of Manufacture	Spain
HS-Code	85159080900
Serie	C470
Temperature (max.)	bis 500 °C
Weight	0.1 kg

STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1

DESCRIPTION

For soldering printed circuit boards that are bonded to metal in mobile phones, tablets, PCs, routers or LEDs, the C470057 transfers high heat into high-mass joints through its 20 x 30 mm face, usable up to 500 °C.

BENEFITS

- Large tinned face 20 x 30 mm for even heat transfer to high-mass, large-area joints
- Heater integrated in the tip for fast heat-up and a stable temperature up to 500 °C
- Fits directly on the T470 soldering iron driven by the HDE supply unit (formerly HD-4700)
- Tool-free tip change in the T470 handpiece
- Optionally usable with High Temperature Magnet 0016258 (not included)

TECHNICAL DATA

Item number	WL41419
Model	C470-057
Manufacturer	JBC

Manufacturer item number	C470057
Product series	C470
Tip series	C470
Tip shape	special form
Tip dimensions	20 x 30 mm
Integrated heater	yes
Max. working temperature	up to 500 °C
Suitable soldering iron / handpiece	T470
Supply unit	HDE (formerly HD-4700)
Dimensions with packaging (LxWxH)	155 mm x 56 mm x 46 mm
Order unit	piece

APPLICATIONS

Soldering of metal-bonded PCBs in mobile phones, tablets, PCs, routers and LED assemblies; high-mass joints.

COMPATIBILITY AND SCOPE OF DELIVERY

Fits the T470 soldering iron driven by the HDE supply unit (formerly HD-4700). Supplied as a single tip (C470057).

Genuine JBC part, made in Spain. ESD-safe to IEC 61340-5-1, CE and RoHS compliant.
