

Soldering tip bevelled, 1.5 mm, for chips - JBC C420-271

Item no. WL41667

Manufacturer JBC

C420 series soldering tip with integrated heater for HT420 and AT420 thermal desoldering tweezers. Bevelled shape, 1.5 mm, for soldering and desoldering SMD components. Sold individually.

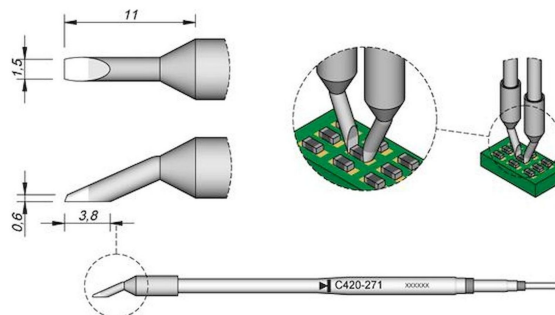

TECHNICAL DATA

Ausführungsklasse **ESD (antistatic)**

Country of Manufacture **Spain**

HS-Code **85159080900**

Serie **C420**

Weight **0.1 kg**

STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1

DESCRIPTION

The C420-271 soldering tip from the JBC C420 series has an integrated heater and is designed for HT420 and AT420 thermal desoldering tweezers. Its bevelled shape (1.5 mm) makes it suitable for precise soldering and desoldering of SMD components.

BENEFITS

- Heater integrated directly in the tip for fast heat-up and stable temperature at the joint
- Bevelled tip geometry, 1.5 mm, matched to SMD components
- Compatible with the HT420, AT420 handpieces
- Available individually as a wear part with consistent geometry for repeatable results

TECHNICAL DATA

Item number WL41667

Model C420-271

Manufacturer JBC

Manufacturer item number C420271

Tip series	C420
Integrated heater	yes
Tip shape	bevelled
Tip width	1.5 mm
Tip application	for chips
Compatible handpiece	HT420, AT420
Order unit	piece

APPLICATIONS

Soldering and desoldering of SMD components in SMD repair and PCB rework.

COMPATIBILITY AND SCOPE OF DELIVERY

Fits the HT420 and AT420 thermal desoldering tweezers. Scope of delivery: 1 soldering tip C420-271.

Manufactured by JBC, country of origin Spain. ESD-safe to IEC 61340-5-1.
