

Interlocking PVC floor tile, light grey, studded, 500 x 500 x 7 mm, 4 pieces - Ecotile WL41870

Item no. WL41870

Manufacturer Ecotile

Interlocking PVC industrial tile in light grey (RAL 7004) with a studded surface, format 500 x 500 x 7 mm. It is loose laid via the open dovetail joint with no substrate preparation. Supplied as a pack of 4 tiles covering about 1 m².

TECHNICAL DATA

Colour	Light Grey
Country of Manufacture	United Kingdom
Depth	500
Height	7
Sales unit	4 Stück
Weight	8.6 kg
Width	500

DESCRIPTION

The Ecotile E500/7 interlocking industrial tile builds a hard wearing floor for workshops, warehouses and commercial areas while reducing dust and noise. The studded surface adds extra grip. The tiles are loose laid on a firm subfloor and tapped together through the open dovetail joint, with no primer or adhesive.

BENEFITS

- Studded surface for added underfoot grip
- Loose laid with an open dovetail joint for fast installation and no curing time
- No substrate preparation required
- Heavy duty floor that absorbs high point loads, impacts and vibration
- Suited to heavy foot and vehicle traffic including fork lift trucks
- Good thermal and acoustic insulation from the subfloor

TECHNICAL DATA

- Material: 100 % recyclable PVC, injection moulded
- Format: 500 x 500 x 7 mm
- Surface: studded
- Colour: light grey (RAL 7004)
- Joint: open dovetail

- Chemical resistant
- Selling unit: pack of 4 tiles

APPLICATION

Suited to production and assembly areas, warehouses, workshops and traffic routes with fork lift use. Tiles can be laid section by section during ongoing operation.
