

Vorfilter mini pleat für AD Access Absauganlage - Bofa A1030153

Item no. WL42860

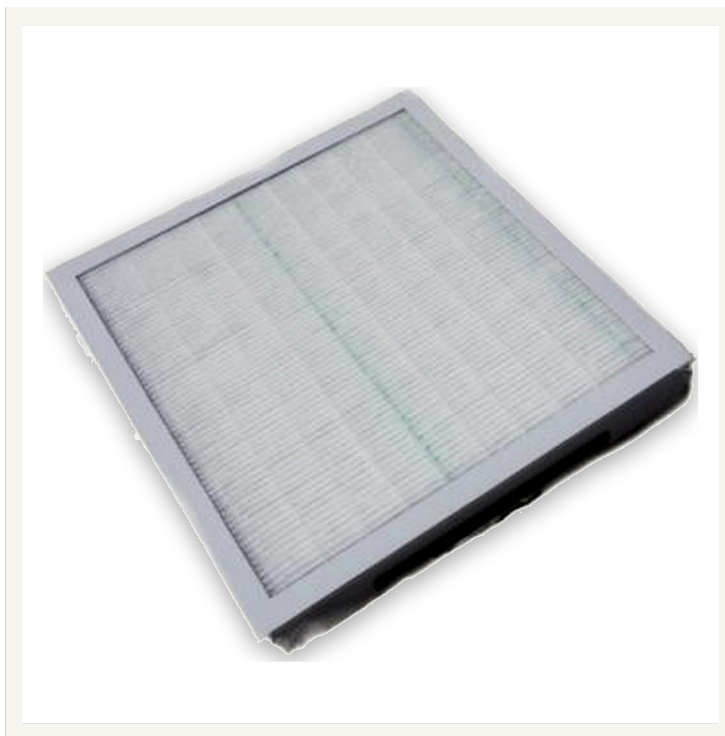

Manufacturer Donaldson Bofa

Mini-pleat prefilter for the BOFA AD Access extraction unit. It captures coarser particles and protects the downstream main filter, significantly extending its service life. Genuine BOFA spare part A1030153.

TECHNICAL DATA

Country of Manufacture **United Kingdom**

HS-Code **84219990**

Weight **0.1 kg**

DESCRIPTION

The A1030153 mini-pleat prefilter is the first filter stage in the BOFA AD Access extraction unit, trapping coarser dust and suspended particles before they reach the combined main filter. The pleated mini-pleat structure provides a large filter area at low pressure drop, extending the service life of the more expensive main filter.

KEY BENEFITS

- Large filter area from mini-pleat folding at low airflow resistance
- Protects the combined main filter from premature loading
- Tool-free replacement inside the AD Access housing
- Genuine BOFA spare with exact fit

TECHNICAL DATA

Item no.	WL42860
Manufacturer item no.	A1030153
Manufacturer	BOFA
Filter type	Prefilter (mini pleat)
Device series	AD Access
Order unit	piece

APPLICATIONS

Wear part for scheduled filter changes on BOFA AD Access laser and fume extraction units.

COMPATIBILITY

Suitable for all units in the BOFA AD Access series. Scope of delivery: one prefilter.
