STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1

DESCRIPTION

Information sheets, work instructions and inspection documents can be kept clean and within reach at ESD workstations. This TARIFOLD wall holder system from Warmbier carries ten fold-out swivel panels and makes the contents readable with one hand.

BENEFITS

- Dust-free storage of information sheets in fold-out swivel panels
- Easy-Load swivel panels for quick exchange of contents
- Holds 10 swivel panels over a magnetic surface with fixing clips

TECHNICAL DATA

- Aluminium holder for wall mounting
- Capacity: 10 swivel panels (included)
- Dissipative version (TARIFOLD IDP-STAT)
- Selling unit: 1 piece

APPLICATION

Ideal for presenting work and inspection instructions directly at the ESD workstation or in production.

STANDARDS AND COMPLIANCE

Dissipative version for use inside the EPA according to IEC 61340-5-1.
