

Senior soldering iron 80S, 95 W, 230 V - JBC 802020

Item no. WL43073

Manufacturer JBC

The Senior soldering iron 80S is a robustly built iron rated at 95 W for use with a 230 V power supply. Its high capacity and performance reach 325 °C in about 6 minutes and cover a temperature range up to 460 °C. It is supplied with the soldering tip 0800409.

TECHNICAL DATA

Power	95 W
Weight	0.1 kg

DESCRIPTION

The Senior soldering iron 80S is a robustly built iron with high capacity and performance for use with a 230 V power supply. Rated at 95 W, it reaches 325 °C in about 6 minutes and suits soldering work with increased heat demand.

BENEFITS

- Robust construction with high capacity and performance
- 95 W nominal power for a temperature range up to 460 °C
- Heating time of about 6 minutes to 325 °C
- Designed for use with a 230 V power supply
- Includes soldering tip 0800409

TECHNICAL DATA

Item no.	WL43073
Manufacturer item no.	802020
Manufacturer	JBC
Model	0802020
Nominal power	95 W
Voltage	230 V

Temperature range (to)	460 °C
Heating time	325 °C in 6 min
Handle type	soldering iron
With soldering tip	yes
Scope of supply	soldering iron, soldering tip 0800409
Order unit	piece

APPLICATIONS

Soldering work with increased heat demand at the bench and in service where a robust iron with high capacity is required.

COMPATIBILITY AND SCOPE OF DELIVERY

For use with a 230 V power supply. The delivery includes the soldering iron and the soldering tip 0800409.

Made in Spain.
