

JBC R245001. Soldering tip R245, chisel, 1.5x4 mm, R245001

Item no. WL43419

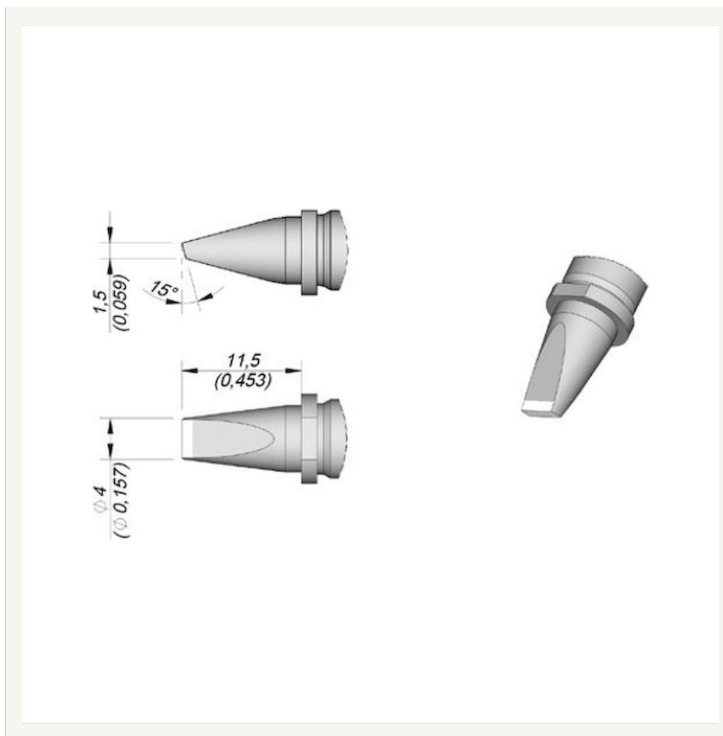

Manufacturer JBC

Soldering tip R245, chisel, 1.5x4 mm, R245001

TECHNICAL DATA

Weight

0.1 kg

DESCRIPTION

- for automated processes
- for standard soldering applications
- Design incorporates a square cross-section that perfectly centers the soldering tip into the soldering irons and ensures precise vertical positioning
- this square cross section allows the soldering tip to be inserted in 4 different positions, which can be changed in 90° steps

PRODUCT DETAILS

item number	WL43419
model	R245-001
manufacturer	JBC
manufacturer item number	R245001
order unit	piece
product series	R245
suitable stand	CS2R245
Tip series	R245
soldering tip or desoldering tip	soldering tip
Soldering tip angle	15°

tip dimensions	4 x 1,5 mm
tip length	11.5 mm
tip width	4 mm
tip thickness	1.5 mm
tip application	General use
tip shape	chisel-shaped
tip alignment	sloped
suitable soldering iron	TR245, TRA245
suitable handpiece	TR245, TRA245
suitable handle	TR245, TRA245
