

Rectangular nozzle for FAE020 and FAE070 flexible arms - JBC FAE082

Item no. WL47430

Manufacturer JBC

The FAE082 rectangular nozzle directs the extracted air of the JBC FAE fume extractor over a wider work area. It clips onto the FAE020 and FAE070 flexible arms without tools. The arms are not included.

TECHNICAL DATA

Weight

0.1 kg

DESCRIPTION

To capture solder fume over a wider zone, fit the FAE082 rectangular nozzle onto the flexible arm of the JBC FAE extraction system. It clips easily onto the FAE020 and FAE070 arms and aligns the extraction opening with the joint.

BENEFITS

- Rectangular opening captures solder fume over a wider work area
- Clips onto the flexible arms without tools
- Compact format of 223 mm x 103 mm including packaging

TECHNICAL DATA

Item no.	WL47430
Manufacturer item no.	FAE082
Manufacturer	JBC
Model	FAE082
Length with packaging	223 mm
Width with packaging	103 mm
Order unit	piece

APPLICATIONS

Capture of solder fume at the workstation with the JBC FAE extraction system when a wider area needs to be covered.

COMPATIBILITY AND SCOPE OF DELIVERY

Suitable for the FAE020 and FAE070 flexible arms. The arms are not included. Supplied as a single piece.

Made in Spain.
