## DESCRIPTION

Four-pin crimping pliers for turned contacts For crimping turned contacts. Four mandrel crimping for high quality crimp connections. Gauge for checking the basic setting. Consistently high crimp quality due to positive lock (can be unlocked). Force amplification through highly effective lever transmission for low-fatigue work. High operating comfort due to handy design. Fine adjustment of crimping pressure to different conductor cross-sections by means of adjusting wheel. Positioning aid for holding the contacts. With table for determining the setting values. Pliers in plastic case with foam insert. - Application: turned contacts (e.g. from Harting; Ilme; Phoenix; Amphenol; Walther; HTS; Contact; Weidmüller) - capacity square millimetres: 0.14 - 6mm<sup>2</sup> - AWG: 25 - 10 - number of nests: 1 - contact diameter max.: 7.5mm

- For crimping of turned contacts
- Four mandrel crimping for highest quality crimp connections
- Gauge for checking the basic setting
- Consistently high crimp quality due to positive ratchet (can be unlocked)
- Force amplification through highly effective lever transmission for low-fatigue work
- High ease of use due to handy design

## Product details

item number	WL47620
model	97 52 65

manufacturer	KNIPEX
manufacturer item number	97 52 65
order unit	piece
RoHS conform	no
surface	chrome-plated
crimp profile	four-pin crimp
Number of crimp nests	1
application crimp	machined contacts (e.g. from Harting; Ilme; Phoenix; Amphenol; Walther; HTS; Contact; Weidmüller)
VDE	no
tool length	230 mm
AWG	25 - 10
type of handle	with multi-component sleeves
