

Sealing plug for T210 soldering iron, 10 pcs - JBC OB1000

Item no. WL48320

Manufacturer JBC

Sealing plug for JBC T210 soldering irons that prevents flux vapours and particles from entering the tool. Recommended for intensive use and near-vertical soldering. Box of 10.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Country of Manufacture	Spain
HS-Code	85159080900
Weight	0.1 kg

DESCRIPTION

The JBC OB1000 sealing plug prevents undesirable flux vapours or particles from entering the inside of the T210 soldering iron, protecting the heating element and cartridge mount from contamination.

BENEFITS

- Keeps flux vapours and particles (FOD) out of the tool
- Recommended for intensive applications and near-vertical soldering
- Extends the service life of the heating element and cartridge
- Direct fit for JBC T210 handpieces
- Supplied as a box of 10 as an economical wear stock

TECHNICAL DATA

Article no.	WL48320
Model	OB1000
Manufacturer	JBC
Manufacturer article no.	OB1000
Suitable for	T210
Dimensions with packaging (LxWxH)	92 mm x 55 mm x 41 mm
Pack quantity	10 pieces
