

Lötspitze QFP Sonderform 26x26 mm für T245 - JBC C245344

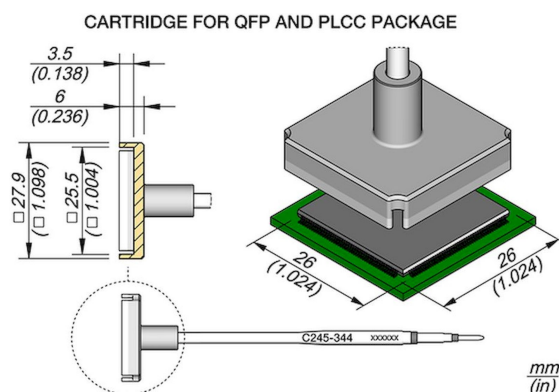

Item no. WL51796

Manufacturer JBC

Large-area QFP soldering tip of the C245 series with a 26x26 mm footprint for the T245 iron. Ideal for soldering and desoldering large quad flat pack components with high thermal demand.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Country of Manufacture	Spain
HS-Code	85159080900
Serie	C245
Weight	0.1 kg

STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1

DESCRIPTION

The JBC C245344 is a QFP special tip for the T245 soldering iron whose 26x26 mm footprint contacts all four sides of a quad flat pack at once. Large SMD components are soldered or removed cleanly in a single operation, even under high power demand.

BENEFITS

- Square 26x26 mm footprint for simultaneous contact of all QFP pins
- C245 series with heating element and sensor at the tip for fast heat recovery
- Straight tip alignment for clear view of the component
- Suitable for general soldering and high power applications
- Tool-free tip change in the T245 handpiece

TECHNICAL DATA

Manufacturer item no.	C245344
Item no.	WL51796
Tip series	C245

Tip shape	special form (QFP)
Footprint	26 x 26 mm
Tip alignment	straight
Suitable handpiece	T245
Order unit	piece

APPLICATIONS

Soldering and desoldering large QFP components, rework on SMD assemblies and soldering tasks with high thermal demand.

COMPATIBILITY AND SCOPE OF DELIVERY

Fits the JBC T245 handpiece only. Supplied as a single tip.

Made in Spain. ESD safe to IEC 61340-5-1.
