

Lindström 8248 Co. Diagonal end cutter, 80 series, 45°, fluted jaws, antistatic

Item no. WL52709

Manufacturer Lindström

Diagonal end cutter, 80 series, 45°, fluted jaws, antistatic

TECHNICAL DATA

Weight

0.1 kg

DESCRIPTION

Diagonal end cutter 45°, long and fluted head, flush cut, conductive handles 0.2 mm - 0.8 mm. The numerically controlled machine grinding guarantees cutting angle accuracy and contact; increases the load capacity and durability of the tool.

- Diagonal end cutters, series 80, tapered jaws, 45° angled
- ESD-safe handles made of synthetic material with opening spring
- Cut/wage: Flush
- The specified cutting capacity applies to copper wire
- Suitable for cutting copper
- High Performance Steel Alloy
- Burnished
- The numerically controlled machine grinding guarantees cutting angle accuracy and contact; increases the load capacity and durability of the tool
- Induction hardened cutting edges, 63-65 HRC
- Friction-reducing screw connection which increases the line accuracy of the cutting edges
- Especially suitable for assembly and reworking
- Version "CO" with antistatic, conductive grip sleeves
