

Auto feed soldering iron for C250 cartridges - JBC SF250-A

Item no. WL53988

Manufacturer JBC

The SF250-A is a soldering iron with automatic solder wire feed for extensive soldering that needs one free hand. A push button feeds the solder wire automatically and an anti-rotation screw keeps the cartridge aligned. It works with C250 cartridges and ships with the C250403 cartridge.

TECHNICAL DATA

Weight **0.1 kg**

DESCRIPTION

The SF250-A suits extensive soldering applications that require one free hand. A push button feeds the solder wire automatically and the iron is designed for perforated solder wire, which improves flux flow and outgassing and avoids solder and flux splashing.

BENEFITS

- Automatic wire feed by push button keeps one hand free
- Designed for perforated solder wire for better flux flow and less splashing
- Anti-rotation screw for the best cartridge alignment
- Works with C250 cartridges, supplied with cartridge C250403 and guide set 0022295 for solder wire Ø 0.9-1.0 mm

TECHNICAL DATA

Item no.	WL53988
Manufacturer item no.	SF250-A
Manufacturer	JBC
Model	SF250-A
Cartridge series	C250
Supplied cartridge	C250403

Guide set	0022295 for solder wire Ø 0.9-1.0 mm
Order unit	piece

APPLICATIONS

Production and repetitive soldering where the wire is fed automatically and one hand stays free to hold the component.

COMPATIBILITY AND SCOPE OF DELIVERY

Works with C250 cartridges. Using the separately available SF250-SE stand it connects to an automatic solder feeder SF and to a modular station at the same time. Supplied with cartridge C250403 and guide set 0022295 for solder wire Ø 0.9-1.0 mm.

Made in Spain.
