

# Power Supply for Brushless Electric Screwdrivers - HIOS T-45BL-EU-HK

Item no. T-45BL-EU-HK

Manufacturer Hios

Control and power supply unit for brushless HIOS electric screwdrivers of the BL and BLG series with two-step voltage switching DC30V and DC20V. The wide-range AC100-240V input allows worldwide use at one workstation per unit.

## TECHNICAL DATA

Weight 0.32 kg

## DESCRIPTION

The HIOS T-45BL-EU-HK powers and controls one brushless electric screwdriver of the BL or BLG series, providing the matching speed and power level through its two-step output voltage.

## FEATURES

- Two-step output voltage HI DC30V and LOW DC20V, switchable
- Wide-range input AC100-240V (47-63 Hz) for worldwide use
- Compact housing weighing about 320 g
- Designed for one connected screwdriver

## TECHNICAL DATA

|                |                                |
|----------------|--------------------------------|
| Output voltage | HI DC30V / LOW DC20V, two-step |
| Input voltage  | AC100-240V (47-63 Hz)          |
| Channels       | 1 screwdriver                  |
| Dimensions     | 71.5 x 146 x 42.6 mm           |
| Weight         | approx. 0.32 kg                |

## APPLICATION

The power supply acts as the control unit at assembly workstations where a brushless HIOS

screwdriver is run at a defined speed and voltage.

## **COMPATIBILITY**

Compatible with HIOS screwdrivers of the BL, BLG, BLG-BC1, BLG-BC2 and BLG-ZERO1 series.
