

Reducing Ring for Ring Lights, 74 mm to 68 mm - Starlight 100-010716

Item no. STL-100-010716

Manufacturer Starlight

Reducing ring for adapting Starlight ring lights. It steps the mount down from 74 mm to 68 mm for a secure, coaxial fit on the objective.

TECHNICAL DATA

Weight **0.1 kg**

DESCRIPTION

The reducing ring adapts Starlight ring lights to objectives, stepping the mount diameter down from 74 mm to 68 mm so the ring light sits centred and shadow-free.

BENEFITS

- Adapts the ring-light mount from 74 mm to 68 mm
- Coaxial, centred fit for even illumination
- Tool-free installation
- Fits Starlight ring lights

TECHNICAL DATA

Reduction	74 mm to 68 mm
Model	WL62844
Manufacturer part no.	100-010716
Sales unit	Piece
ESD safe	no

APPLICATIONS

For adapting ring lights to different objective diameters in microscopy, inspection and quality control.
