ESD safe

DESCRIPTION

Crimping head rotates 360°, with 8 detent positions. Trapezoidal crimp profile, high capacity range from 0.14 to 10 mm². Crimping of wire end ferrules possible from almost any working position. Crimping tool automatically adjusts to the different cross-sections. Crimping opening accessible from both sides, crimping up to 18 mm in length in one operation, overlong ferrules can be pushed in. Crimping of twin ferrules up to 2 x 6 mm² possible. Consistently high crimp quality due to positive lock (can be unlocked). Lightweight and handy tool, manual force reinforced by toggle lever mechanism. Chrome Vanadium electrical steel in special quality, oil-hardened.
