

## Automatic-feed soldering iron for C250 - JBC ALE250-A

Item no. WL71739

Manufacturer JBC

Automatic-feed soldering iron that delivers the exact amount of solder programmed in the station at the press of a button, leaving one hand free. Ideal when a consistent solder amount is needed across repetitive joints. The iron works with the ALE automatic-feed soldering station and the C250 cartridge range.

### TECHNICAL DATA

 Power **150 W**

 Temperature (max.) **bis 450 °C**

 Temperature range **90-450 °C**

 Weight **0.1 kg**

### DESCRIPTION

The ALE250 is an automatic-feed soldering iron for applications that require one free hand. With a single button press it feeds the exact amount of solder programmed in the station, which makes it well suited to consistent, repetitive solder joints.

### BENEFITS

- Automatic solder feed at the press of a button for consistent joints
- Leaves one hand free during soldering
- Anti-rotation screw for optimal cartridge alignment
- Works with the C250 cartridge range

| Order unit                        | piece             |

## APPLICATIONS

Repetitive soldering tasks with a consistent solder amount in production and repair where one hand needs to stay free for the workpiece.

## COMPATIBILITY AND SCOPE OF DELIVERY

The ALE250 works exclusively with the ALE automatic-feed soldering station and the C250 cartridge range. Scope of delivery: one ALE250 automatic-feed iron. Cartridge and wire guide are not included, and wire guide kits are available for different solder wire diameters.

Made in Spain.
