

Articulated hand rest with base for PHNK preheater, right hand - JBC RHN-A

Item no. WL71768

Manufacturer JBC

Articulated hand rest with base that provides a point of support close to the work area. It enables a more relaxed posture and reduces fatigue during precision work. Supplied with the HRR right hand rest and designed for the PHNK Nano preheater set.

TECHNICAL DATA

Country of Manufacture Spain

HS-Code 85159080900

Weight 4.5 kg

DESCRIPTION

The RHN-A hand rest gives precision work at the PHNK Nano preheater a stable point of support for the hand right next to the work area, making component placement, soldering and tweezer work noticeably steadier.

BENEFITS

- Articulated hand rest for a firm point of support close to the joint
- More relaxed posture and less fatigue during long precision tasks
- Sturdy base designed specifically for the PHNK Nano preheater set
- Can be combined with the HRL left hand rest for two-handed work

TECHNICAL DATA

Model	RHN-A
Item number	WL71768
Manufacturer item number	RHN-A
Scope of delivery	Base with shaft + HRR right hand rest
Dimensions (LxWxH)	310 mm x 239 mm x 205 mm
Net weight	4.50 kg
Order unit	set

APPLICATIONS

For precise operations such as placing components, soldering, picking with tweezers or feeding solder at the PHNK preheater bench.

COMPATIBILITY AND SCOPE OF DELIVERY

The base plate is designed for use with the JBC PHNK Nano preheater set. Scope of delivery: 1 base with shaft and 1 HRR articulated right hand rest. The HRL left hand rest is available separately to work accurately with both hands at the same time.

Manufactured by JBC, Spain.
