

High-precision stand with fine focus and quick release - Dino-Lite RK-10A

Item no. RK-10A

Manufacturer Dino-Lite

EAN 4712805474820

The RK-10A is a high-precision tabletop stand in stainless steel and aluminium for all Dino-Lite microscopes. Rotary fine focus and a safety stop give clean results at high magnification.

TECHNICAL DATA

Ausführungsklasse	TEC
ESD equipment	USB Mikroskop
HS-Code	90119090
Weight	1.1 kg

DESCRIPTION

HIGH-PRECISION TABLETOP STAND FOR HIGH MAGNIFICATION

The RK-10A holds a Dino-Lite microscope especially steady above the object. A rotary knob on the top sets the working distance very precisely, which is decisive for a sharp image at high magnification. The quick-release function still allows fast vertical repositioning.

FEATURES

- Built from resilient stainless steel and lightweight aluminium
- Rotary fine-focus knob for very precise working-distance adjustment
- Quick-release function for fast vertical movement
- Adjustable safety stop that prevents the microscope from touching the specimen

USE AND COMPATIBILITY

Suited to demanding high-magnification inspection in industry and laboratory. Compatible with all Dino-Lite microscopes.
