DESCRIPTION

PORTABLE CRADLE STAND WITH FIXED WORKING DISTANCES

The MS12C consists of a base unit with two insert adapters and provides three hands-free fixed working distances with matching magnifications, with no need to hold the microscope by hand. The clear acrylic cutaway base keeps the observed object accessible to light and tools.

THREE WORKING POSITIONS

- Without adapter: working distance about 15 mm at around 40x
- With one adapter: working distance about 41 mm at around 25x
- With two adapters: working distance about 61 mm at around 18x

COMPATIBILITY

Recommended for AM2111, AM3111, AF3113 and casual use. The MS12C is not recommended for professional continuous use or for the 4xxx, 7xxx and 8xxx series. For those models the RK series stands are the right choice.
