

Polarized USB gooseneck light 40 cm - Dino-Lite SL-ZW1

Item no. SL-ZW1

Manufacturer Dino-Lite

EAN 4712805471553

The SL-ZW1 is a USB-powered LED gooseneck light with rotatable polarization. It provides additional, glare-reduced side lighting for Dino-Lite microscopes.

TECHNICAL DATA

Ausführungsklasse	TEC
ESD equipment	USB Mikroskop
HS-Code	90119090
Weight	0.1 kg

DESCRIPTION

POLARIZED USB AUXILIARY LIGHT FOR DINO-LITE MICROSCOPES

The SL-ZW1 is a USB-powered LED light on a flexible gooseneck. The polarization can be adjusted by simply rotating the accessory itself, so unwanted reflections are suppressed in a targeted way. It suits situations where the microscope is further from the object but still needs polarized illumination.

FEATURES

- USB-powered LED light, no separate power supply needed
- Rotatable polarization at the light head for glare suppression
- Flexible gooseneck, about 40 cm long, freely positionable
- Works as a side light to enhance the view of surface topography

USE AND COMPATIBILITY

Ideal together with polarizer models such as the AM4115ZT, for example in jewellery and material inspection. On models without polarization it serves as additional side lighting. Compatible with all Dino-Lite microscopes.
