TOTALSTOP - central brake system

Construction:

Innovative, comfortable, ergonomic and safe: This brake system developed by fetra can be easily locked or released with only one foot. Apart from the rotation of the wheels, also the swivelling movement of both swivel castors is securely locked. This avoids hazardous situations by preventing the braked cart from swinging sideways. Due to its central location, the brake pedal is always visible to the operator and can be operated in any position of the castors. The rubber wheel locking device is effective on all tyre materials and can be very easily readjusted.

Technical details:

Platform width	600 mm
Country of origin	Germany
Customs tariff number	8716800000
Warranty	10 years
EAN-Code	4017976822112
Order number	2211
