

Adjustable wrenches forged from CrV steel. According to DIN 3117 / ISO 6787.

Adjustable wrenches RG 200, RG 250 and RG 300

Extra-long version with soft-finish skin-friendly handle made of oil and acid resistant TPR (thermoplastic rubber) with hanging hole. Slim head with ground jaws. Accurate control of flexible jaw with smoothrunning adjustment via knurled screw. Easy to read millimetre scale for defining size across flats and measuring work pieces.

NO	also indicates length in mm	maximum jaw width
23 990	RG 200	24.5mm
23 992	RG 250	29.0mm
23 994	RG 300	34.0mm
